INTRODUCTION

Registry Trust Ltd was established in 1985 to maintain the only official statutory **Register of Judgments, Orders, and Fines** for England & Wales on behalf of the Ministry of Justice, and maintains similar Registers for Scotland, Northern Ireland, Republic of Ireland, Isle of Man, and Jersey by agreement with the relevant authorities.

Promote responsible lending and borrowing

Our 'live' data on monetary judgments (including CCJs) supports millions of lending and credit decisions in the British Isles & Ireland every year and can be used to identify trends, including the current economic and social realities for those in the most vulnerable situations. It even creates usable credit metrics through the absence of a judgment record.

Inform discussion on the economy, inform policy makers and empower consumers

As a not-for-profit company which doesn't cost the government or tax-payer any money, we provide a trusted and impartial source of credit information and place no interpretation on the content of the Register; we simply ensure that the records published are as accurate and up to date as possible. Our mission is to use and share this **public data for public good** to promote responsible lending and borrowing, inform discussions on economy and empower consumers and enable good business decisions.

Enable better data-driven decisions

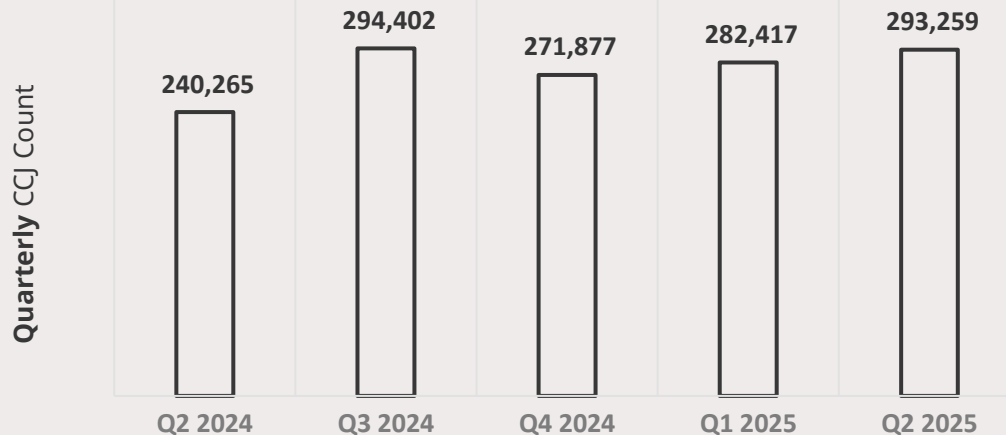

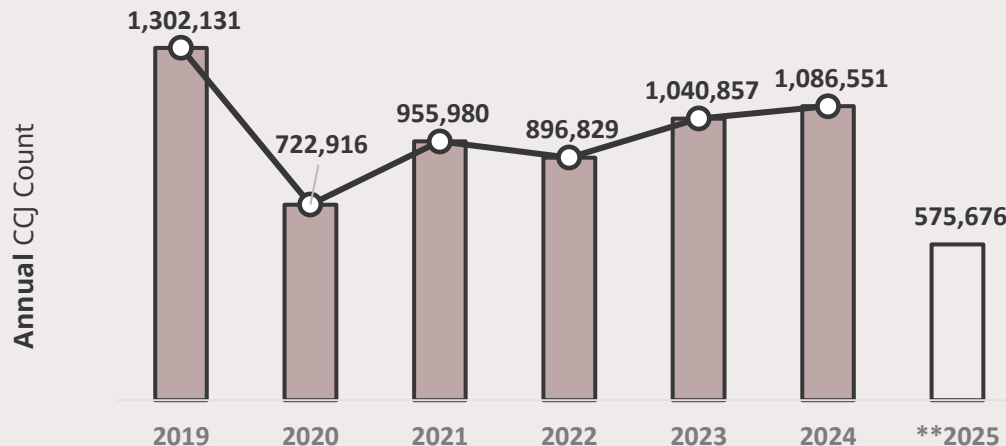

Methodologically, the data in this report reflect records received over the previous 6 years. Analysis is undertaken each quarter and published in these reports. Seasonal variations affecting the workload of the courts and differing economic conditions may have an impact on the statistics and the variations between periods. Where there are factors known to have influenced the volume or value of the statistics in this report these are commented on.

Summary

Glossary

Judgment – A monetary award determined by a civil court, typically resulting from legal disputes or claims. The structure and specific details of judgments can vary depending on the jurisdiction.

New Judgment – A judgment recorded in the Register for the first time during the specified period.

Judgment Date – The date designated to a judgment by the court, reflecting when the judgment was issued. This is distinct from the date on which the judgment is first recorded in the Register.

Register – A record that contains all registered judgments within the six-year retention period.

Satisfaction – The fulfilment of a debt or court order, demonstrated by evidence that it has been fully paid.

Cancellation – The termination of a debt or court order by the court, typically due to satisfaction within the same calendar month or other specified reasons.

Unsatisfied Judgment – A court-ordered debt or payment obligation that remains unpaid by the debtor and is recorded in the Register under the unsatisfied judgment status.

Satisfied Judgment – A court-ordered debt or payment obligation that has been fully paid by the debtor, with supporting evidence provided. It is recorded in the Register under the satisfied judgment status.

Jurisdiction – Registry Trust manages monetary judgment data for jurisdictions across the United Kingdom and Ireland. Specifically, the jurisdictions supported are England & Wales, Scotland, Northern Ireland, Ireland, Guernsey, Jersey, and the Isle of Man.

Consumer Judgment – Monetary judgments awarded against an individual.

Commercial Judgment – Monetary judgments awarded against non-personal entities.

Corporate Judgment – Monetary judgments awarded specifically against incorporated businesses, such as limited companies.

Non-Corporate Judgment – Monetary judgments awarded specifically against unincorporated businesses, such as sole traders and partnerships.

Data Analyst Comments

- The report uses data from the Register version observed on 1st July 2025, prior to 11AM. The Register maintains records for a period of six years. As of 1st July 2025, it contains judgment data with judgment dates spanning 1st July 2019 to 1st July 2025.
- Judgment dates are assigned by the court, distinct from the date the judgment is recorded in the Register. A judgment date is always on or before the date of its insertion in the Register. Judgments are removed from the Register if their judgment date exceeds the six-year retention period.
- The flow of judgments is determined based on the date they are entered into the Register. New judgments registered during the specified timeframe may have judgment dates within the past six-year period. For instance, a judgment entered in 2025 could have a judgment date from as far back as 2019. While a judgment inserted in the Register in 2025 is categorised under that year, its actual judgment date may fall in 2019.
- Beyond the routine addition of new judgments and the automatic deletion of records after the six-year retention period, there are additional reasons why judgments can move in and out of the Register. For simplicity, all other movements are categorised under the 'cancelled' category. This includes judgments satisfied within the same calendar month and any other adjustments involving the addition or removal of records.
- For clarity and readability, some numerical values — including percentages — have been rounded. As a result, individual figures may not sum precisely to totals due to rounding.
- Certain judgment amounts in the Republic of Ireland are denominated in euro. In these cases, totals have been converted to GBP using the daily spot exchange rates from the Bank of England database as of June 30, 2025 (€1 = £0.8566).
